ENVIRONMENTAL STATEMENT

At C & F Electrical Services, we recognise that our business has an effect on the local, regional and global environment. We will adhere to minimise any potentially harmful effects of our activities.

We will take all practical steps to ensure that appropriate environment factors are taken into account in the design, carrying out and maintenance of all our projects. We recognise that effective environmental management can drive our company forward in terms of our environmental performance and pollution prevention.

C & F Electrical Services is committed to ensuring that our minimum standards are in compliance with current environmental regulations, laws and codes of environmental practice.

We aim to promote environmental awareness and compliance amongst our Staff and Clients through our newsletters and website.

In particular C & F Electrical Services has introduced the following:-

- the environmentally safe and responsible disposal of light tubes and lamps in accordance with SEPA controlled waste legislation.
- Strong links with Waste Aware, Fife
- Wherever possible we are working towards recycling our packaging to help reduce the amount sent to landfills
- Re-use of cable drums, pallets and recycling of copper wire
- Introducing policies to improve the efficiency of energy within our workshop and factory
- Regular column in our newsletter advising our clients on energy savings tips

C F Electrical Services annual review of environmental policy and performance ensures it is compliant with legislation and allows us to make improvements and developments.
